Albumenized Papers, Collodions.
Gold, Silver, and Chemicals.
Varnishes, Card Mounts, &c.

THE importance of purity in Photographic Chemicals must suggest itself to all. Our Imports have for the past half century been acknowledged as PRACTICALLY PURE, THOROUGHLY RELIABLE, and of UNIFORM STRENGTH AND CHARACTER. Commercial samples (as met with in Indian bazaars), though perhaps unadulterated in the strict sense of the term, are not always to be depended upon, as they are liable to be contaminated with other matter which will unfavourably affect results when operating.

DETAILED PRICE LISTS FREE ON APPLICATION

TREACHER & COMPANY, Ld.,
BOMBAY, BYCULLA, AND POONA.

TREACHER'S GLENLIVET WHISKY.

IMPORTANT CAUTION!

WHEREAS for a period extending over many years there has been uninterruptedly sold in the Indian Market a certain blend of Scotch Whisky known to the trade and the public as TREACHER'S GLENLIVET WHISKY, each bottle of which bears near the front shoulder a characteristic heart-shaped label with a caution label on the reverse and a Phœnix trade-mark on both labels, as well as on the cork and the mettalic capsule covering the cork, and which Whisky from its high state of purity, rich soft mellowness, and intrinsic worth has met with such general appreciation, and so fully established itself in public favour as to be now familarly known as "Glenlivet," "Treacher's Glenlivet," "Glenlivet Whisky," "Treacher's Whisky," "Treacher's Glenlivet Whisky," and "Heart-Labelled Whisky," the Public are hereby warned and cautioned against accepting as TREACHER'S GLENLIVET WHISKY any brand failing to correspond with the aforenoted particulars.

MACLEAN'S GUIDE to BOMBAY and BOMBAY DIRECTORY for 1883.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, JULY 5.

THERE is no alteration whatever in the quotations for the leading English and East Indian Securities on the London Stock Exchange. Indeed, the Bank of England lately made several alterations about loans to dealers and brokers which has greatly retarded speculation, hence the few fluctuations which we have witnessed of late. The Money Market remains easy—four months' bills being discountable at ½ and three months' at ¾ per cent. below the Bank rate. An early reduction in the official quotation is therefore looked for.

In the General Produce markets, Rapeseed is dull; Wheat and Coffee unchanged.

The Manchester market is quiet but steady.

The Liverpool Cotton market yesterday closed quiet; Sales 10,000 bales, of which 1,000 bales Surats. Spot prices are unaltered.

The American markets were all closed yesterday, the 4th of July, being Independence Day.

MONEY.—The Bank of Bengal's rates have been reduced one per cent. Six per cent. is now the figure for on demand loans.

EXCHANGE.—Reuter now quotes 50½d. per oz. for Bar Silver, the price named in the private messages received two days ago. Two further shipments of the metal are advised—namely, £30,000 to Bombay and £10,000 to Calcutta. At the weekly biddings for Council Bills, one lakh on demand for Calcutta was taken up at 1s. 7 7-16d., and Rs. 30,000 on Bombay at the same figure. The largest transactions, however, were by Telegraphic Transfers—four lakhs were allotted to Bombay, 20½ lakhs to Calcutta, and one lakh and-a-half to Madras at 1s. 7 15-32d. The next biddings will be for 25 lakhs, and it is understood that the Transfers "to be allotted" will not be influenced by the notice regarding tenders for bills". The market opened firm, at an advance of 1-32d. for both Bank and Mercantile Paper, but about noon an easier feeling set in. Credits were done on the basis of 1s. 7 25-32d. for three months, which is the rate at which business was practicable yesterday. For ready demand Bank Bills 1s. 7 17-32d. was named, but it is impossible to get this figure now. For forward delivery decidedly lower rates were named at the close—say, 1s. 7 7-16d. for demand, and 1s. 7 13-32d. for telegraphic from August onwards:—

Bank bills on demand	1s. 7¼d.
Do. Telegraphic Transfer	1s. 7 7-16d.
Do. three months' sight	1s. 7 11-32d.
Credits, do.	1s. 7 25-32d.
Francs, do.	fcs. 2·03½

GOVERNMENT PAPER is steady, and business is reported in 4 per cents. at Rs. 99⅜; 4½ per cents., Rs. 104½. Some small pieces of the former were done at Rs. 99⅝.

SHARES.—The Directors of the Bank of Bombay have declared a dividend of five per cent. for the half-year to 30th June last, making with the 5 per cent. interim return of 2½ per cent. in January last 7½ per cent. for the year. Port Canning shares have risen to Rs. 340. There is little doing in Press securities. We have only heard of some business in Alberts at Rs. 1,090 and New Indians at Rs. 227½. In Mill shares some Alliances were placed at Rs. 935; Dhurrumseys at Rs. 600; Empress at Rs. 865; Hindostans at Rs. 1,165; Hydrabads at Rs. 1,220; Imperials at Rs. 455; Manjamas at Rs. 260; New Great Easterns at Rs. 1,070; Western Indias at Rs. 1,035, and People of Indias at Rs. 385. In miscellaneous stocks there is a drop of Rs. 75 per share in Bombay and Burmah Tradings, for which there are sellers at Rs. 3,675. Bombay Fire Insurance Co.'s shares have also declined to Rs. 3,600. Kamp and Company's shares are in demand at Rs. 257.

COTTON.—There is a complete lull in the market, and notwithstanding present low freights, exports are not inclined to continue shipping in the present stagnant state of the home markets. We quote:—

		Per candy.
Machine-ginned Broach	.....	Rs. 185
Omrawuttee, Fine	.....	„ 172
Do. F.G.	.....	„ 164-165
Do. Good	.....	„ 158-160

Do. F.G. F.	.....	„ 153
Dharwar, Saw-ginned, Good	.....	„ 161-165
Compta	.....	„ 146-142

LINSEED is steady at yesterday's quotations.

RAPESEED dull and depressed; Guzerat, Rs. 7 per cwt.; Cawnpore, Rs. 6-10.

WHEAT.—There is a steady enquiry for White Pessie, which has further advanced. Other qualities are also in fair request. We quote White Pessie No. 1, Rs. 32 to Rs. 33 per candy; Yellow, Rs. 28 to Rs. 28½; Luskari, Rs. 26½ to Rs. 27; Catha, Rs. 24½ to Rs. 24½.

FREIGHTS remain [illegible] Liverpool *via* Canal, 25s. 6d. for [illegible]; Business [illegible] London, 20s.; [illegible]

Cotton [illegible] in consequence of the [illegible] in the railway communication with the up-country districts.

The Rev. C. Kirk, M.A., is appointed to officiate as Chaplain of Baroda, visiting Surat and Broach. The Rev. C. Kirk will visit Rajkot and Bhavnagar once during this rainy season.

CIVIL APPOINTMENTS, &c.

JUDICIAL DEPARTMENT.

Major F. J. Wise, Supdt. of Police, G. I. P. Railway, is allowed an extension for three days of the privilege leave for one month granted to him by the Govt. of India, on 2nd May.

Mr. D. Davies acted as Second Grade Assist. Dist. Supt. of Police during the period of Mr. R. H. Vincent's absence on privilege leave.

The appointment of Mr. Haverson to be substantive pro tem. Second Grade Assist. Dist. Supt. of Police, made in Govt. Notification dated 5th April last, is to have effect from the date of expiration of Mr. Vincent's leave.

Rao Saheb Jivanlal Pranjivan, Probationary Mamlatdar of Vagra in the Dist. of Broach, is appointed to be a Magte. of the Second Class in that Dist.

The Govr. in Council is pleased to appoint Mr. D. C. Johnstone to be a Justice of the Peace within and for the territories subject to the Govt. of Bombay other than the Presidency Town of Bombay.

The Hon. the Actg. Chief Justice of H. M.'s High Court of Judicature has granted to Mr. J. W. Orr, Prothonotary and Ecclesiastical and Admiralty Registrar, privilege leave for three months from 17th July next.

The Hon. the Govr. in Council is pleased to confirm the following appointments made by the Hon. the Actg. Chief Justice during the absence of Mr. J. W. Orr, or until further orders:—Mr. G. H. Farran, Sub-Comr. for taking Accounts and Taxing Officer, to act as Prothonotary and Ecclesiastical and Admiralty Registrar; Mr. A. K. Oliver, Assist. Registrar, Appellate Side, to act as Assist. Comsr. for taking Accounts and Taxing Officer.

The Rt. Hon. the Govr. in Council is pleased to confer on the following Mahalkaris in the Khandesh Dist. the powers of a Mamlatdar:—Messrs. Narayan Ramchandra, Mahalkari of the Parola, and Narayan Mathar, Mahalkari of Nizampur.

Mr. T. Moore, First Class, Second Grade, Subordinate Judge, has been allowed by H. M.'s Secy. of State for India a further extension for six months of the extraordinary leave without pay granted to him in Govt. Notification dated 19th Feb.

EDUCATIONAL DEPARTMENT.

Surgn.-Major W. Gray and Assist. Surgn. Sakharam Arjun Ravut respectively delivered over and received charge of the office of Professor of Botany in the Grant Medical College on 18th inst.

Messrs. Vallabhram V. Mehtha and Madhavlal H. Desai respectively delivered over and received charge of the office of Depy. Educational Inspr., Panch Mahals and Rewa Kantha, on 19th inst.

REVENUE DEPARTMENT.

Mr. F. I. Hewett, Actg. Assist. Supt., Ratnagiri Revenue Survey, is dismissed for grave misconduct from the service of Govt., with effect from the date of his suspension from office, and is declared ineligible for re-employment in the public service in any capacity.

Mr. J. W. P. Muir-Mackenzie, Forest Settlement [illegible] for three months (or 1st Aug.

Mr. A. R. Grant, Coll. S. [illegible] Colr. of Kaladgi, is allowed privilege leave of absence for three months from such date in Aug. as he may avail himself of it.

The Govr. in Council is pleased to appoint Mr. J. F. Muir, C.S., to act as Colr. and Magte. of the Dist. of Kaladgi, and Dist. Registrar, Kaladgi, during the absence of Mr. G. F. M. Grant, or till further orders.

Mr. Balakrishna Martand is confirmed in his appointment of Seventh Grade Special Sub-Registrar of Bhimthadi in the Poona Dist.

Major T. M. Ward, Assist. Supt., Ratnagiri Revenue Survey, to act as Supdt. of the Poona and Nasik Revn. Surv., vice Col. G. A. Laughton, or till further orders.

Rao Bahadur Janardhan Ballal is allowed furlough for six months in lieu of the leave for two months on medical certificate granted to him under Govt. Notification dated 5th May.

GENERAL DEPARTMENT.

Asst. Surgn. Damodar Raghunath Dhume, L.M. & S., is permitted to resign the Bombay Medical Service.

H. E. the Rt. Hon. the Govr. in Council is pleased to appoint Surgn-Major W. Gray, M.B., to be a Member of the Municipal Corporation of Bombay, vice Surgn.-Major T. Cody, L.R.C.P., deceased.

H. E. the Govr. in Council is pleased to appoint Surgn. Lt.-Col. [illegible] M.D., to be Secy. to the Surgn-Genl. with the Govt. of Bombay, vice Surgn-Major T. Cody, L.R.C.P., deceased, with effect from 22nd June.

PUBLIC WORKS DEPARTMENT.

H. E. the Govr. in Council is pleased to make the following acting promotions, with effect from 25th May to 11th June, vice Col. Hancock, R. E., whose services have been placed at the disposal of the Govt. of India, and until the return of Major-Genl. Merriman, R. E., to duty:—Mr. J. H. E. Hart to act as Chief Engr., First Class; Col. W. A. Baker, R. E., to act as Chief Engr., First Class.

Mr. K. R. Godbole, Assist. Engr., First Grade, is appointed to officiate as Ex. Engr. for Irrigation, Sholapur and Ahmednagar, during the absence of Mr. S. S. Rasbon on privilege leave.

The following gentlemen have passed the professional examination as prescribed in Chapter II., Section I., paras. 16 to 18 of the P. W. Dept. Code:—

Messrs. H. A. D. Watson and A. V. Heath, Assist. Engrs., Second Grade, West Deccan State Railway.

MISCELLANEOUS NOTIFICATIONS, &c.

SURGEON DENTIST,

DR. C. F. KHORY

(LICENTIATE OF DENTAL SURGERY OF THE ROYAL COLLEGE OF SURGEONS OF ENGLAND, 1873),

No. 23, RAMPART ROW,

opposite the Floral Fountain, next to *Bombay Gazette* Office.

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments formerly by us from Dr. A. Manisi, we are not only in a position to suit the eye sight to perfection

TELEGRAPHIC.

THE FLOODS AT SURAT.

LOSS OF LIFE AND DESTRUCTION OF PROPERTY.

(FROM OUR OWN CORRESPONDENT.)

SURAT, JULY 5.

A great flood here. The river day night, and continued rising began to fall on Wednesday morning, otherwise all Surat would have been in danger.

The streets in places were flooded many feet deep.

The Collector and others went about in boats rescuing people and distributing food.

The Assistant Judge's Court-house was swept away, with part of the Adawlut compound. Many houses fell. Some lives have been lost. The exact number is at present unknown.

Great inconvenience continues, but the danger is past.

The water is falling fast.

No flood like this has been experienced for sixty years.

The railway is damaged on both sides of the town.

FURTHER PARTICULARS.

(FROM ANOTHER CORRESPONDENT.)

SURAT, JULY 5.

The heavy rains caused the water in the river to rise about six o'clock on Monday evening with such a sudden and tremendous rush that in two or three hours all the low-lying districts were flooded. The water rushed into the houses of most people before they could escape and save their property. Rising with marvellous rapidity, it filled all the ditches at once. Katargaum, Gastipura, Nanpura, Rustumpura, and other purus were more or less inundated. The railway goods-yard, the Adawlut, the public park, the Castle, the High School, the Hospital, and the Church were all in the water. In Variawi Bhagul Bazaar the water flooded the shops to the roofs. The Nanpura-Mukai bridge was overflooded and is said to be dangerous. The Hope bridge was inundated except one span only. The Assistant Judge's Court-house has been swept away by the floods. Fortunately the records were saved. For a considerable time all communication between the city and the deeply inundated purus was impossible except by boats, which were not available. A portion of the town shared the general fate through the ready channels supplied by the drains. In fact, the water flowed over the greater part of the whole city.

No proper arrangements were made by the Municipality to keep sufficient boats plying to rescue those poor wretches who, taken unawares, sought refuge on the branches of trees and roofs of houses, and had to cry for succour uselessly. All public and private business was completely at a standstill for three days.

The flood began to subside yesterday afternoon, and now the city is clear of the water.

It is said that this has been more disastrous than the great flood of Sumvut 1893. The water rose about 197 feet above sea level. Hundreds of houses are falling down with tremendous crash.

The people encompassed with water crying for help formed a most pitiable sight.

The actual damage and loss are not yet ascertained. The value of the house property destroyed is estimated at about two lakhs.

The granaries and haystacks have been considerably damaged. Sion, Kosad, and Fulpada on the north, and Adajan, Bhatha, and other villages on the opposite bank of the Tantee are completely in the water.

Monday's down mail is stopped here. The Sanud bridge has given way.

The up mail-train with mails for England is detained yet at Kim. The Kankrakhari bridge has been washed [illegible]

The Government telegraphs to send on the mails at any expense, but the authorities could not do it.

COLLISION BETWEEN A STEAMER AND A LIGHTSHIP.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JULY 5.

Mr. Henderson, the Chief Presidency Magistrate, gave judgment to-day in a case in which a pilot, named Symons, was charged with drunkenness and with causing a collision between the steamer Maharance and the lightship Foam, on the 10th May, while in pilotage charge of the former. The jury found the prisoner not guilty of drunkenness, negligence, incompetence, carelessness, ignorance, or unskilfulness, but guilty of an error of judgment. The magistrate accordingly acquitted him, and in so doing animadverted on the conduct of the captain of the Maharanee, who (the magistrate said) had falsified an official document with the object of bringing home the charge of drunkenness against Pilot Symons.

THE CHOLERA IN EGYPT.

(FROM THE PRESS COMMISSIONER.)

SIMLA, JULY 5.

In consequence of the cholera in Egypt, the Consul-General telegraphs that Italy imposes five days' quarantine.

[REUTER'S TELEGRAMS.]

CAIRO, JULY 4.

The cholera still continues to spread, and the mortality is daily increasing.

QUARANTINE AT ANTWERP.

ANTWERP, JULY 4.

Five days' quarantine will be enforced on all vessels arriving at this port from India.

THE INDIAN TROOPSHIPS.

LONDON, JULY 5.

The Indian troopships will go to India next season via the Cape.

TERRIBLE DISASTER ON THE CLYDE.

A fearful disaster occurred yesterday at the launching of the steamer Daphne on the Clyde. On reaching the water, the steamer overturned, and 131 people were drowned.

THE POONA RYOTS' BANK.

A meeting under the presidency of Mr. Bright was held at Exeter Hall yesterday to promote the Poona Ryots' Bank. Mr. Bright warmly supported the scheme as being a satisfactory solution of a question which was of constantly increasing importance.

The Right Hon'ble gentleman said that the scheme was calculated to remove discontent and to add to the prosperity of the country.

STEAMER MOVEMENTS.

COLOMBO, JULY 5.

Mail-steamer Thames, from Calcutta, arrived.
Mail-steamer Rohilla, from China, arrived.

LONDON, JULY 4.

The Liverpool Cotton market closed quiet. Surats quiet.

The London Cotton market has been flat.

Fair Dhollerah..... 3 13-16d.
The Manchester market has been quiet but steady.

THE HOMEWARD MAILS.

Messrs. P. and O. Company have received a telegram from Aden stating that the Hydaspes, which left Bombay on the 29th June, arrived there at 2 p.m. on Wednesday, the 4th instant, having encountered a very strong monsoon.

The Government have punished Mr. F. L. Hewett severely for his misconduct. We quote the following order from yesterday's *Bombay Government Gazette*:—

"Mr. F. L. Hewett, Acting Assistant Superintendent, Ratnagiri, Revenue Survey, is dismissed for grave misconduct from the service of Government, and is hereby declared ineligible for re-employment in the public service in any capacity."

The Bank of Bombay declares a dividend for the half-year ended 30th June last, at the rate of 10 per cent. per annum.

We learn that the profits of the Bank of Bengal for the past half-year amount to Rs. 13,50,000. Out of this sum the directors have applied 10 lakhs in payment of a dividend at the rate of 10 per cent. per annum, transferred Rs. 53,000 to adjust the valuations of certain investments, Rs. 25,000 to bad and doubtful debts, Rs. 40,000 to pension fund, and carried forward the balance of Rs. 2,35,000 to this half year.

There was another slight increase in the number of deaths from cholera in Bombay city last week as compared with the preceding week, namely, 14 as against 10, but in spite of the increase the deaths for the week were still below the average of deaths from cholera in the first week of July for the last five years, which is given as 15. There were only seven deaths from small-pox.

Mr. J. W. Oke, Prothonotary of the High Court, has been granted three months' leave from July 17. Mr. G. H. Farran acts as Prothonotary, and Mr. A. K. Oliver acts for Mr. Farran as Assistant Commissioner for taking accounts, and Taxing Officer.

Surgeon-Major Wellington Gray has been nominated by Government to the vacant seat of the late Dr. Cody in the Municipal Corporation.

The post of Secretary to the Surgeon-General with the Government of Bombay, left vacant by the death of Dr. Cody, has been conferred on Surgeon A. A. Patterson, M. D.

A notification appears in yesterday's *Bombay Government Gazette*, to the effect that His Excellency the Governor-in-Council has been pleased to direct that the Medical Officer in charge of the European General Hospital shall in future be designated "Physician," instead of, as heretofore, "Surgeon," European General Hospital.

The Rev. Dr. A. Führer has been appointed to deliver the series of Wilson Philological Lectures in connection with the Bombay University, for the year 1884.

The Rev. C. Kirk is appointed to officiate as Chaplain of Baroda, "visiting Surat and Broach," and it is announced that he will "visit Rajkot and Bhownuggur once during this rainy season." Is this all the opportunity of spiritual ministration that the unfortunate Church of England residents at Bhownuggur and Rajkot enjoy in the monsoon?

The amount of cotton exported from Berar this season to the 16th June was 306,900 bales, as compared to 321,620 for the same period of the season 1881-82. Of the total amount 115,574 were sent from Amraoti, 72,702 from Sheagaum, and 68,645 from Khangaum.

Mr. G. F. M. Grant, Acting Collector of Kaladgi, takes three months' leave from August next, and Mr. J. F. Muir will officiate during his absence.

The Marine Department has issued a notice warning commanders of ships that the buoy Godavery at Cocoanada has disappeared.

From the Bombay Presidency district season reports for the week ended July 4, we see that a good rainfall has been registered in most parts, and agricultural prospects generally are promising. The heaviest rain was in Broach (10·16 in. for the week); Surat, where, the report says, there are "heavy and unprecedented floods;" Rajkot, (10·16 in. for the week and 8·8 in. in one night), Baroda (8·24 in.), Thana (12·23 in.), Khandesh (6 in. at Dhulia), and Satara (6·15 in.). Sowing operations have been retarded in the Broach and some districts by too much water, and in parts of Kaladgi, Belgaum, and Dharwar (the districts of the Southern Mahratta country most frequently affected in this way) by the want of rain. In Sind, too, but little rain has fallen hitherto, and some anxiety is felt on account of the low state of the river and canals. Considerable damage is being caused to the young crops by [illegible] and Poona.

An alarming increase is reported in the number of deaths from cholera during the week ended on July 4, in the Ahmedabad district, where no less than 317 persons died from that disease within the seven days. When it is remembered that there were 633 deaths from cholera in the Ahmednugur district in the previous week, 384 the week before that, and 168 and 102 respectively in the two weeks preceding, it will be seen not only that the Collectorate has suffered very severely from the epidemic, but that the evil is spreading very rapidly. The Poona district, also, still has a large cholera mortality, the number of deaths in that district for the last week being 422. In Nasick, Sholapur, and Thana cholera is abating, a considerable diminution in the number of deaths being shown.

His Excellency Mr. Grant Duff, accompanied by his staff, was to leave Ootacamund yesterday, to commence his tour, the programme of which has been already published. Mrs. Grant Duff and her children are about to proceed to Kotagherry for a change, and will rejoin them there during the Governor's absence from Ootacamund on tour.

The *Madras Mail* has news of a chapter of accidents at Ootacamund. "Mrs. James Arbuthnot met with a nasty accident on Friday by the upsetting of her carriage on the road, which is now being mended, near Government House gate. The horse, which was being driven by the Hon. Colonel Sankey, R. E., Secretary to Government in the Public Works Department, shied at a roller which was being dragged along the road, and upset the carriage. Mrs. Arbuthnot, we regret to add, had one of the smaller bones of the arm broken, and Colonel Sankey received a good many bruises. Mr. Dante Hodgson, who had such a narrow escape in the pig-sticking adventure of last week, his thigh having been horribly ripped up by the boar, is now doing well."

As a specimen of stupid impertinence the following para. from the *Indian Daily News* will stand comparison with anything that "Britannicus" has ever permitted to publish in the columns of the *Englishman*:—

"Letters from Simla show a state of things which would go a long way to prove that the work of the administration has been seriously affected by Lord Ripon's philanthropy. There are rumours of friction between the Viceroy and the members of the Government, and of despatches from Home of a querulous, if not positively fault-finding, nature. The Viceroy is said to exhibit considerable obstinacy in his opinions, and to be difficult of approach. There can be no doubt that his Lordship has felt the severe strain of the past few months; and if he could take a holiday, it would, perhaps, be equally best for his own health and for the disposal of the [illegible] questions which are returning upon his hands."

What is the Calcutta press coming to, when offensive silliness of this kind finds the prominence which should be given to political information, or serious discussions?

The following are understood to be some of the principal points in the despatch recently sent out by the Secretary of State on the subject of the Indian Marine:—Vessels belonging to the service are to carry the blue ensign with the Star of India badge; the uniform is to be slightly modified; all first appointments are to be made by the Secretary of State; and letters of appointment, signed by the Viceroy, will be given to the officers selected, who will further be graded in the table of precedence. The superior port appointments will also be reserved for Marine officers, a limited number being placed upon them to secure promotion. All sea-going vessels will be absolutely under the control of the Supreme Government. There is some probability of a Bill being passed which will enable the Government to introduce a short disciplinary Act for the Marine. It is understood that a General Order will be shortly published fixing the establishment of the different grades and granting certain allowances for command of vessels and charge of engines.

Remarking on the Resolution of the Public Works Department on the subject of expenditure, which we reproduce to-day from the *Gazette of India*, the *Pioneer* says:—"The answer it gives to Mr. Stanuope's recent homily in the House of Commons appears to us to be conclusive."

Mr. Andrew Dalgleish reached Leh on his return from Chinese Turkistan on 17th June. He left India in the depth of last winter, crossing the Karakorum at a season at which it has never before been attempted, at any rate by any European, in order to be in time to say farewell to his friend the Ambaw of Yarkand, who had been transferred on promotion to a post nearer "home." Mr. Dalgleish was the bearer of a sword and a courteous letter from the Foreign Department thanking the Ambaw (Ying-Lao-Tai) for the great kindness he had uniformly shown to the large body of British subjects resident in his province, and he arrived in time to submit to him both sword and letter, and to receive from him for transmission to the Indian Government a present and a letter of acknowledgment. The adventurous traveller writes that there has been no change in the very friendly attitude of the Chinese authorities of Yarkand towards British subjects; that the new Ambaw, Kwang Lao-Tai, is as kind as his predecessor, and has authorised Mir (Mr. Dalgleish) to enter Chinese Turkistan at all times without passport. Mr. Dalgleish proceeds at once to Simla, and (the *Pioneer* remarks) will probably soon have further particulars and details, not only of his somewhat perilous journey, but also of the present position of affairs in Central Asia.

Whatever the feeling and intentions of the Chinese Government on the question of their relations with France, there appears to be a strong popular predilection in favour of an appeal to arms, as shown by the demonstrations in honour of their generals wherever they appear. Two Chinese generals of note were in Shanghai when the last China mail left (June 5). "One is Liu Mingch'uan, who is under orders for foreign service in Annam. Liu is said by the Chinese to be unwilling to go, as he is suffering from a painful affection of the eyes; but there is no question of his refusing to take arms. The other is Li Chaoln, who arrived two days ago, and was received with demonstrations second only to those in honour of the Chung-tang himself. So great was the crowd to see him land that two sightseers fell into the river, one of whom was drowned."

The *North China Herald* wrote on June 8, after its editor had had an interview with Li Hung-Chang:—"As regards the question of the hour, we can only say that the chances of peace appear to us infinitesimal. It is fully determined to fight unless France acknowledges the suzerainty of China over Annam, and is even ready to take the field in person. Nothing, in fact, is to be hoped for, excepting from the mediation of some friendly Power; and we therefore trust that the arrival of Sir Harry Parkes, a man who may have some influence in the matter, will be, if possible, hastened."

The *China Mail* says that an official telegram of some three hundred words was received in Hongkong on the 4th June for M. Tricou, the new French Minister to China, and forwarded to Shanghai. The opinion entertained of M. Tricou by his countrymen at Saigon and Haiphong is that he is a man of quick impulse and prompt action, and not at all likely to lose much time in diplomatic argument with Chinese officials. M. Tricou was formerly Consul-General for France at Cairo, and displayed much firmness and decision in carrying out the deposition of the ex-Khedive Ismail.

A telegram has been received at Peking from the Marquis Tseng, announcing his serious illness and the necessity for his return to China. A reply was sent to the effect that the position of affairs between France and China was too serious to permit of the latter country being left unrepresented at Paris, and ordering the Marquis to retain his post.

Official intimation has been received at Shanghai of the exchange of ratifications of the Corean and American Treaty between General Foote, U. S. Minister at Seoul, and the Corean Government. The ratifications of both the English and German treaties with Korea have been postponed for the present, the proposed tariff being unacceptable to those Powers.

Writing on June 13, the Alexandria correspondent of the *Pioneer* says of the execution of Suleiman Pasha, which has caused some sensation in England:—"Whilst the Europeans express unbounded satisfaction at the example which has been made, the Arab looks upon the matter as rather an aggression than an act of justice. Rightly or wrongly, he regards everything that is being done as done by the English, and the execution of Suleiman, after nearly a year's imprisonment, is regarded rather as an act of vengeance than an act of justice."

MILITARY NEWS.

The death of Lieut.-Col. A. J. Tufnell, late of the Border Regiment, is announced from Mussoorie.

Colonel Goodfellow, V.C., R.E., and Surgeon Major Nolan have been permitted by the Secretary of State to retire on pay.

Major H. French, Bombay Staff Corps, retires from the service from 7th July on a pension of £317-12-6 per annum.

Privilege leave of absence from 1st July to 15th August is granted to Captain C. R. W. Harvey, R. A., Allahabad.

Captain H. I. P. Thompson, G. I. P. Railway Volunteers, has been granted nine months' leave to England.

The other day the 77th Regiment at Rangoon turned out in full field marching order with twenty-five mules to each company. The regiment was ready for a start within fifteen minutes from the time it turned out.

TELEGRAPHIC WEATHER REPORT.

SIMLA, July 4.—The depression noticed during the past few days has entirely disappeared, and a brisk recovery has occurred over the whole of Western India. In Madras also the barometer has risen, but over Northern India it has fallen, and a fresh depression is forming over Bengal. It has drawn the wind into north-west over the North-West Provinces, Behar, and Bengal; but southerly winds prevail in Burmah, and south-westerly breezes over the Peninsula. Rain is general in Burmah, Bengal, and the Punjab, but there has been a cessation elsewhere. Rain to-day:—Hazaribagh, Calcutta, Mount Abu, 2 inches; Simla, Mussoorie, 1 inch; Lahore, Umballah, Dhubri, Silchar, Dacca, Sangor Island, Akyab, Diamond Island, and Rangoon, ½ inch. Previously:—Sirsa, Moulmein, Dhulia, and Naini Tal had each 1 inch; Ahmedabad, Ahmednuggur, Kaladgi, and Prome, each over ½ inch.

Madras.—There was a heavy fall of rain in Madras yesterday morning (July 1) between 8 and 11 o'clock, accompanied by thunder and lightning. We have ascertained from the Observatory that the rainfall measured 1·83 inches, the total rainfall since 1st July for the year being 2·64 inches in seventeen days. The average rainfall in Madras up to this period of the year is 6·75 inches, so that there is still a deficiency to be made good, however, we are all in favour of our getting more rain.—*Madras Mail.*

THE WEATHER AND CROPS REPORTS.

The following is the official summary of the reports of the Agricultural Department on the state of the weather and condition of the crops throughout India, for the week ended June 26:—

Rain has fallen during the past week all over the Madras Presidency, but except along the Malabar Coast and in Coorg the fall has been comparatively slight. There was rain again in Sind; elsewhere in the Bombay Presidency it has been general, but more is reported to be urgently wanted in some places. The Berars and Hyderabad have received a fair quantity during the week, and showers have fallen throughout the Central India States and Rajputana, but more is also wanted in these tracts. No report has been received from Burmah. In Assam the districts of Lakhimpur and Sylhet have received heavy rains, and in the latter district portions of the recently-flooded lands have again been submerged. In Bengal and the North-West Provinces the fall has been general and sufficient, and in Behar it has been excessive. Rain has held off in the North-Western Provinces and Oudh and the Punjab, and the heat has been intense. Latest reports show that in the former province wet weather has now set in, but the Punjab as yet is practically rainless. Agricultural prospects remain unchanged in Madras. Kharif operations are being actively carried on everywhere; sowings have been completed in parts of Bombay, and have commenced in parts of the Punjab; elsewhere they are in active progress. The rain has injured the jute and rice crops on low lands in Bengal, otherwise the prospects in Bengal are very favourable. Locusts have appeared [illegible] and are continuing to be a source of danger to the coming crops in Bombay. Cattle disease of a mild type is generally prevalent. Prices remain stationary, except in the North-Western Provinces, where they show a tendency to rise. Fodder is sufficient. After Mr. Blanc's speech, he (Mr. Peterson) was disposed to think that it was only by an accident that he had not included Constantinople as one of the places to be visited by Mr. Ollivant.

Mr. Dosabhoy.—I don't know anything about the conservancy of Constantinople.

Mr. Peterson repeated that Constantinople was not included in the list, only by a happy accident.

Mr. Nowrozjee opposed the motion, by saying that it would be best for the interests of the Municipality that Mr. Ollivant should come back to Bombay and take charge of his duties as early as possible. Many very important questions pending in this decision had remained in abeyance, and it would be injurious to the Municipality to let the Commissioner remain in England, away from his duties, longer than was absolutely necessary. Invaluable as were the services which Mr. Ollivant as Municipal Commissioner, he must be not only a general administrator, but also an engineer, in order to be enabled to collect and digest information on questions relating to drainage, water-supply, and the disposal of *kutchra*.

Dr. Blanc said he very gladly supported Mr. Dosabhoy's motion. He thought what Mr. Dosabhoy intended by his motion was that during the few months' extra leave, Mr. Ollivant should make himself acquainted with some important facts regarding drainage, water-supply, and the disposal of garbage. He was not supposed to go over all the world, but to visit one or two places where he might expect to get valuable information. Mr. Nowrozjee had said that because Mr. Ollivant was not an engineer, he should be incompetent to give an opinion on matters connected with sanitation. If it came to that, Dr. Blanc said that all the members of the Town Council and Corporation should be engineers (hear, hear); and he did not see why Mr. Nowrozjee should take upon himself to discuss questions of sanitation. (Laughter.) He had a conversation with Mr. Ollivant, shortly before his departure to Europe, when he told the speaker that he regretted very much that he had not sufficient time to visit some places in Europe where there was a good water-supply and a good system of drainage. Mr. Ollivant had further told him that when he returned to Bombay, he would apply for furlough next spring, but if he could get altogether six months' leave, he would not go on furlough next year. Mr. Ollivant did not authorize him to communicate what he had in it said to the Council, but he referred to the conversation as showing the desire of Mr. Ollivant to study practically the important question on which the welfare of the city mostly depended. If it were necessary, they should allow him to remain in England eighteen months or two years longer, that eminent engineer would be very much [illegible] Government to send a medical man of experience to act as Health Officer during the time he (Surgeon-Major Weir) acts as Municipal Commissioner.

Dr. Blanc said it was very strange that though the Municipal Commissioner had already been away about six weeks, they were without a Health Officer to act in place of Dr. Weir.

After some discussion, Dr. Blanc again rose and said that the fact that he did not know Dr. Weir was a coincidence, but the filthy condition of the city at the present moment had been unequalled before in his experience of Bombay. If they walked about in the streets of the native town, they would find that its condition was alarming in the extreme. He might be in error, but it seemed to him that in some streets *kutchra* was not at all removed. It was not only to be found in the hideous boxes, but also in heaps, and was allowed to decompose in the streets. They had already some cases of cholera in Bombay, and there was a good deal of it in the Deccan and other parts of the Presidency. Surely they knew that the existence of a condition which favoured the spread of cholera, it was dirt; and if there was anything which favoured its prevention, it was cleanliness. The citizens, who paid the taxes, had a right to expect that the Municipality would see to the question of conservancy. He had a right to demand that cleanliness should be scrupulously observed.

Mr. Nowrozjee said the proposition before the meeting was for the sanction of the Town Council to be adopted by the Town Council, as the appointment of a medical officer did not rest with them, but with the Corporation. Mr. Nowrozjee said further that as the conservancy of Bombay was to the filthy state of some of the small streets and lanes was well "sounded. On a previous occasion he had himself brought forward the complaint before the Town Council, suggesting the necessity of appointing a Health Committee to inquire into the matter and make a report.

Dr. Blanc said that if Mr. Nowrozjee should bring forward a proposition for the appointment of such a committee, he would second it.

After some further discussion the Council resolved, on the motion of Dr. Blanc, that the Acting Municipal Commissioner be asked to apply to Government for the services of a medical officer to act for the Health Officer (Dr. Weir) while otherwise employed.

APPLICATION TO DEMOLISH A BUILDING.

The Council further considered memorandum No. 2763, dated 12th ult., from the Acting Municipal Commissioner, forwarding letter No. 1832, dated 16th June, from the Executive Engineer, reporting that Mr. Buaidas Kalliandas has erected a range of tiled sheds, at New Elphinstone-road, (consisting of six rooms, without plinth, height of the sheds only six feet) and below the level of the surface of the road thereat. The sheds also abut against a building on the east side, and are objected to by the Health Officer on sanitary grounds. On or about the 20th September last the work of erecting such sheds was commenced; on the 4th November last he was served with a notice requiring him to submit for approval the usual building certificate plans, but up to 1st instant he had not been complied with. In March last the building was completed. The Acting Municipal Commissioner therefore asks the consent of the Council that the provisions of Section 167 of the Municipal Acts, to the demolition of the said sheds, so as to bring the same within the requirements of the Acts.

In the course of discussion, Mr. Sayani proposed that the Town Council, under the circumstances of the case, did not think it desirable to give their consent, under section 167 of the Act, to the demolition of the sheds, but that it might be left open to the Commissioner to deal with the owner in the manner provided by law.

Dr. Blanc proposed an amendment that the Acting Municipal Commissioner be requested to see the owner of the building, and endeavour to settle with him on such modifications being made to the building as would bring the same within the sanitary requirements of the Act; the Commissioner to report the result to the Town Council.

Mr. Sayani's proposition was ultimately carried.

As the Council was going to adjourn, Mr. Nowrozjee suggested to the Chairman that as there was a good deal of business in arrears, an extra meeting should be held on Monday or Tuesday.

The Chairman thought he had better adjourn the meeting to the usual day (Wednesday).

HIGH COURT.—JULY 5.

(Before Mr. Justice Bayley.)

JAMOONDAS MUNGULDAS *vs.* SIR MUNGULDAS, NATHOOBHOY.

In reference to this suit, the plaintiff, it may be remembered, left his father's home in February 1881, when he had only recently completed his seventeenth year, owing, as he alleged, to dissensions in the family. This, however, Sir Munguldas denies, and states that the plaintiff left at the instigation of his brother-in-law, Mr. Harjeevandas Jugjeevandas, who appeared to be taking advantage of his youth and inexperience, and who had been forbidden to live in the defendant's house, because he had persistently set himself against the endeavours made to provide him with employment and had been promoting dissensions in the family. Subsequently the plaintiff applied for an allowance from the family funds, but as his father refused to entertain the proposal, he instituted proceedings in the High Court, claiming a partition of the ancestral property and such other relief as to the court might seem meet. Sir Mungulas resisted, saying that an accord partition of ancestral property was opposed to the custom and usage of the Gujerati Bania caste, to which he belonged. Subsequently he applied to have evidence of the custom taken by commission, suggesting that the mode of examination should be *viva voce*. Mr. Justice Bayley issued commissions accordingly, and ordered that the evidence should be taken upon interrogatories, cross-interrogatories, and re-interrogatories. Afterwards the plaintiff applied that the witnesses should be examined *viva voce*, saying that his interests were prejudiced in the way in which the evidence was obtained, and alleging that his father had sent active agents to Kattywar and Gujerat for the purpose of collecting evidence and preparing witnesses. The defendants opposed the application, pointing out that the majority of the commissions had been executed on interrogatories, and that it would be consistent to the ends of justice that the remainder should be executed in the same way.

The question thus involved came before Mr. Justice Bayley, the Acting Chief Justice, yesterday.

Mr. Inverarity, who appeared for the defence, said that the matter was to come on that day, but that he understood that the other side intended applying for a postponement, because they wanted to affirm further affidavits. They had already, however, had ample time for that purpose.

His lordship.—Whom do you appear for?

Mr. Inverarity.—For Sir Mungulas Nathoobhoy, the first defendant.

The Hon'ble Budroodin Tyabjee, who appeared for the plaintiff, said it was all very well for his learned friend to complain. There was a good deal of new matter in the affidavits. He was very anxious to get rid of the matter as soon as possible. If his lordship would fix a day next week he would then be ready to go on. There had been no time for them to know what the new matter was.

His lordship.—You could not bring it on to-morrow?

Mr. Budroodin replied that that would be too early. They would put in their affidavits by one day next week. They would be put in on Monday, and the matter might come on on Thursday next.

Mr. Inverarity said that three of the affidavits for the defence were put in on the 28th, and another on the 30th, and only two on Wednesday.

His lordship.—They can put them in on Monday.

Mr. Budroodin said the question was the advisability of having witnesses answering *ex scene*. The other side had filed several affidavits at the very last moment.

Eventually it was decided that the affidavits in the plaintiff's case should be filed on Monday and that the further consideration of the point at issue should be postponed to Thursday next.

(Before Mr. Justice Scott in chambers.)

KAKOO WADIA'S CASE.

THE ANGLO-INDIAN SPINNING AND MANUFACTURING COMPANY *vs.* RUTTONJEE RUSTOMJEE WADIA.

Mr. Turner, attorney for the plaintiffs in this suit, applied to his lordship for an order restraining the defendant to make an affidavit as to all documents, papers, and vouchers connected with the suit which may be in his possession or under his control.

Mr. Hormusjee of Messrs. Anderson and Hormusjee, who happened to be present on other business, said this was an *ex parte* application, and no notice had been given to the defendant or his attorneys; and he therefore asked his lordship not to make an *exparte* order under the peculiar circumstances in which the defendant had been placed by the issuing of a criminal warrant for his arrest.

His lordship said that, under the Civil Procedure Code, the plaintiffs were entitled to make the application, and he did not see why it should be treated differently from a similar application in any other case. The order asked for was then made upon granted.

PUBLIC WORKS EXPENDITURE.

The following Resolution is published in the *Gazette of India*:—

Simla, June 27, 1883.

Read the following Statements prepared by the Accountant-General in the Public Works Department:—

Statement A—Showing outlay (other than from Loans) on Public Works of all kinds, and the net charge on the Revenues of the year, from 1873-74 to 1883-84.

Statement B—Showing additions to the liabilities of the State on account of Productive Public Works of all descriptions, from 1873-74 to 1883-84.

Observations.—Statement A exhibits the annual outlay (other than from Loans) under the three main divisions of Famine, Ordinary, and Productive Works.

2. Under the division of Famine, the outlay actually incurred on Famine Relief Works in the years 1876-77 to 1879-80 is entered, because it was thence dispensable for a fair comparison of those years with the years 1881-82 to 1883-84, in which a portion of surplus revenue has been set aside and expended on works providing a protection against famine. The annual average of outlay on Relief Works during the first eight years of the series was £898,604, and that in the last three £750,000.

3. Under the division of Ordinary, Imperial, Provincial, and local transactions are shown separately, because the constitution of the three is essentially different, and their amalgamation would vitiate any comparison of the several years' totals. With respect to the Imperial transactions, it will be observed that there has been

1881-82	15,337	
1882-83	103,000	chiefly years under Famine
1883-84	174,700	increase

due to the new charge for subsidised railways, of which the Bengal Central Railway is the principal example.

In the Provincial transactions, a considerable increase will be observed in the last three years of the series. This, however, is mostly not an increase of actual charge, but is merely due to the expenditure by the Provincial Governments of balances which they had accumulated during previous years, in which their outlay will be seen to have been correspondingly low. These accumulations were mainly caused by the orders curtailing all outlay under Provincial and Local, as well as under Imperial heads, during the Afghan war. The average [illegible] in 1883-84 is only £1,034,726, which is less than even the outlay in the first year of the series, 1873-74. In any examination of Provincial transactions it must be distinctly remembered, that, under the decentralisation system established during Lord Mayo's Government, the Provincial Governments administer revenues assigned to them initially, and that the Imperial Government has no control over them during the term of the contract. In 1882-83 the periodical revision took place, and new contracts for five years were entered into, the net financial result of which was an increase in Imperial and Provincial resources of about £387,000 per annum. It may, however, be noted that the Provincial system imparts considerable extra security to the Imperial finances, by the guarantee it comprises of interest on Imperial loans for Productive Public Works. The amount of debt thus guaranteed at present is about 19½ millions (conventional) sterling.

Local transactions, that is to say, those of the various Committees and Boards administering funds assigned, or levied by law, for strictly local objects, are entirely beyond Imperial control, and in a very great measure beyond that of the Provincial Government. Such increase in outlay as is observable may be ascribed partly to the expenditure of accumulated balances, and partly to the normal growth of the assigned funds themselves.

Taking the division of Ordinary as a whole, it may be said with general accuracy that, during the last eleven years, the Imperial expenditure has been stationary, except as augmented by the subsidized railways, and that the Provincial and Local transactions have not outstepped, and in fact have in some cases fallen within, the normal increment of the revenues upon which they are based. The outlay under the two latter heads will be less in 1883-85 and subsequent years, owing to the depletion of the balances already referred to.

4. The Productive division of the Statement presents two totals, exclusive and inclusive of the Guaranteed Railway Companies. Under every separate column in this division (except Madras Harbour) a material diminution of outlay has occurred of late years. Taking only the Madras Harbour, Irrigation, and Sate Railways proper, the this charge of £360,267 in 1873-74 has been reduced to £144,024 in 1883-84. The addition of the East Indian Railway, acquired by the State in 1879-80, converts charge of £144,024 into a receipt of £884,709. But if the Guaranteed Railways are also brought in, as is indispensable for fair comparison of the position of the State in respect of Productive Works at successive periods, then the result is even more remarkable, a charge of £1,602,416 in 1873-74 being replaced by a receipt in 1883-84 of £510,200. In other words, the net charge on Productive Public Works revenue, after paying all charges for interest, has been £2,121,616 in eleven years.

5. Statement B shows the formal additions to the liabilities of the State during the period under review—a factor which cannot be omitted without creating erroneous impressions regarding the financial results of Public Works administration.

The total amount of new liabilities is stated to be £20,824,538, but this amount includes £8,231,330 which was originally outlay from Ordinary revenues, but was subsequently transferred, for greater accuracy of account, to the head of Productive Public Works. The new liabilities of the State have consequently increased by [illegible] and as many of our troops as the guns would [illegible] had they been fired. It is estimated we had to deal with 10,000 Chinese, whereas we had only 450 marines and soldiers. The recall had to be sounded and the troops returned to Hanoi. The day cost us the death of Commandant Riviere, Chef de Bataillon de Villers, of a Captain and sub-Lieutenant of Marines, a midshipman, and 12 marines and soldiers, besides 20 officers and 34 men wounded."

The Shanghai *Herald* has received some particulars of the death of Commander de la Riviere, which differ from those given in the Hongkong papers. "According to private advices, M. de la Riviere, accompanied by several of his officers, was escaping from the dangerous position in which he had been placed, and attempting to return to quarters. A number of Chinese soldiers pursued him, and, as we understand it, cutting off a corner of the route, came within easy firing-distance of the retreating party, who were thus exposed on the flank to their attack. As M. de la Riviere was running he was struck by two balls, which nearly killed him disabling him there and then. In this extremity he turned to the lieutenant who was near him, and said 'Shoot me.' The request was complied with at once; and as the Commander lay dead, the lieutenant who had shot him received his turn, a ball through his brain, and died beside him. Our latest advices from Haiphong to Namdinh are of an encouraging nature. Reinforcements have been relieved, precautions have been taken against further surprises, and the forces of the French is put down at six thousand seventy privates."

A Chinese account, which appeared in the *Wai-kuan-pao*, of the 1st [illegible] called the *Wai-kuan-pao*, of the 1st [illegible] from the Black Flag faction, saying that the French about three [illegible] Hanoi, and [illegible] other three principals. We quote as follows from Mr. Casey's order in the case:—"The assaults arose out of money disputes. The defendants demanded more than complainant was prepared to pay, and the defendants determined to take the law into their own hands, and compel Mr. Newton to satisfy their demands. To this end Gopiya and Bacchiya and Kooshiya went to Mr. Newton's premises, but were driven off and assaulted him. They seized his beard, pulled out a lot of hair (hair produced in Court), and thumped him. They then left and waited outside the gate to prevent complainant going to Naini Tal. Their deliberate waiting on the road is proved. They then seized Mr. Newton's bridle when he came out, and endeavoured to prevent him proceeding on his journey. In this struggle Gopiya especially was active and violent. He struck Kishna (complainant's chowdri) on his head and cut it, and he aimed a blow at Mr. Newton's head, but Mr. Newton intercepted it with his hand, and had his little finger badly cut. I myself saw the wound and blood still fresh. Gopiya was also the leader in the first assault. The first assault demands severe punishment. For an equal offence an equal by the beard is in the East a great disgrace. For low caste servants to seize by the beard their master, an English gentleman, tan elderly and not strong gentleman (60) is both a cowardly dishonouring and cowardly assault; and it adds to the gravity of the offence that it was prompted by the desire to compel the victim to accede to demands which he did not consider just. For this offence and the [illegible] defendants guilty under Section 355, I. P. C., and I sentence Gopiya and Bacchiya to six months' rigorous imprisonment each, and Kooshiya who is young to three months' rigorous imprisonment. The second assault was also a grave one. I find defendants guilty under Section 323, I. P. C., and I sentence Gopiya to six months' rigorous imprisonment, Bacchiya to three months' rigorous imprisonment, and Kooshiya to one month's rigorous imprisonment.

THE FIGHTING IN TONKING.

Various accounts are given of the way in which Commandant Riviere was killed. A letter from the Haiphong correspondent of the Hongkong *Daily Press*, which we quoted last week, said that the Commander was shot in attempting to recover a lost gun. The Hai

running helterskelter like foxes or rats. Upon this many were sent off post-haste to the near est stations for help. Reinforcement from Saigon are now being landed at Hanoi and Haiphong." The same paper of the 3rd June has a graphic descrip tion of the fatal events:—"The death from wounds of Colonel Carreau on the 12th; an attack on the French, from two sides on the 12th, when the Black Flags formed a circle victory with only 4,000 men; another victory on the 15th, when the French were chased, and 8 of their guns taken and spiked; the bombardment of Hanoi, responded to by the French with little effect (like the braying of a donkey into empty space); sortie on the 18th by Commandant Riviere with 500 men of whom more than 100 were killed or wounded (Riviere and other four officers named among the slain); the mutilation of corpses, including women and children, which, although 'barbarous,' shows the desperate purpose to avenge of these Black Flags; and the setting on fire of Hanoi by the French, the flight of the inhabitants, and general misery."

Another account says:—One of the killed was an officer wearing five stripes: he was decapitated and his head carried off by the Black Flags; another officer wearing four stripes was also killed, but his body was recovered by the French soldiers; and other officers with two, three and four stripes were also killed. . . The Black Flag soldiers are rewarded for bringing in the heads of officers, the reward being fixed at 15 dlrs. per stripe worn by the victim. . . The leader of the Black Flags is named Liu Yunfuk; previously he was a rebel, but is now in the service of the Annamese Government.

THE LATEST NEWS.

The Tongtin correspondent of the Hongkong *Daily Press* writes as follows:—

Haiphong, 5th June.—Since my last communication, dated the 29th ultimo, I have several times intended to write, but have as often dropped my pen again, as there was, after all, nothing of moment or interest to chronicle. The poor French officers and men who were killed in the affray of the 19th May had their heads cut off by the Black Flag brigands, and these ghastly trophies are now being carried about in triumph in the interior by the exulting foe. Two unhappy sailors were, it now seems certain, taken alive, having been only slightly wounded, and they are now, I hear, being paraded, an exhibition, in the interior, and subjected to the most horrible insults and tortures. Under the circumstances, our French friends are justified in adopting the course they have, namely, of shooting all the prisoners belonging to these brigands who fall into their hands.

We have received a good many reinforcements since the disaster of the 19th ult., and there are now about 4,000 troops in Tonquin, but plenty more are still wanted, without taking into consideration the possibility of China declaring war against us. As it is, all we can do now is to defend ourselves in Delta. To attempt to go further up the country at present is out of the question, as the entire population are in revolt. The Concession at Hanoi has been attacked several times lately, but happily without any success. Hanoi presents a very desolate aspect now, one half of it having been burned down, and the whole town looks like a big graveyard more than anything else. In Namdinh, matters do not look pleasant or encouraging. Khanh-ke, upon the left bank of the river, a place 8 hours' walk from the garrison of 400 men, there are about one hundred laid up with dysentery. From twelve to fourteen of the cases have already proved fatal. To inforcements have been despatched hither, but the number of men was necessarily small, the troops available being so limited. The Namdinh garrison will, however, no doubt be able to keep the besiegers at bay until the arrival of the expedition from home. Meantime they are suffering severely.

The commander of the gunboat Parseval has been placed in command at Hanoi, but Admiral Meyer is supreme command of all the forces in Tonquin. General Bovet is expected to arrive to-morrow by the Ulysses from Saigon. I think for the operations on shore a General of Brigade is needed; he is, of course better versed in military matters than a naval officer, however gallant and brave. We are certainly in a considerable fix at the present moment, and it is to be wished most sincerely that Admiral Courbet Lespes or Courbet Kergaradec would soon come here and introduce some system into the administration of the country. At present we are all at sixes and sevens, and things are in general confusion. M. de Kergaradec has been nominated Minister to Hue, I know, but what possible good can he do there now? He would probably be assassinated, and France would lose one more of her best sons. I hope, therefore, until the country is thoroughly pacified and a proper administration organised, that he will remain in Tonquin. The European civilians have already all been removed from Hanoi to Haiphong. They have no longer any houses to live in at the capital, where they had for some time been rationed with provisions by the Government, and thus could eventually only have proved a burden. Some two hundred Chinese and Annamite domestic servants have also been sent down to Haiphong. Trade here is of course at a standstill. Last night some alarm prevailed in Haiphong, in consequence of a rumoured attack on the town. As you may imagine, life is not too pleasant here even for us civilians, and the prospect would not be improved if we could seriously believe there was a chance of our falling into the hands of those barbarians, the Black Flags.

If that late regretted officer, Commandant Riviere, had been allowed to follow up his successful capture of Hanoi in April, 1882, he would surely have saved France a large expenditure both of men and money. There was practically no resistance then to be encountered, and the country could have been quietly occupied. Who is to blame for the unfortunate and most injudicious delay? The then Ministry and Governor of Saigon? In the opinion of every person here now.

We (*Daily Press*) . . . Biard, of the French . . . ing re- . . . last information . . . The French forces are awaiting the arrival of General Bovet, from Saigon, to take the place of the unfortunate Commandant Riviere before proceeding to further action, and the necessary reinforcements are also being awaited. Namdinh is completely beset by swarms of Annamese and Black and Yellow Flags. Captain Biard says that many Annamese have been shaving their heads and making queues, to appear as Chinese. The garrison of Nam Dinh is composed of about 100 French troops and rather over 100 native auxiliaries, who are practically besieged in the citadel. All the rest of the town has been burnt, and it is not expected that there will be anything to record for about another month, when reinforcements will arrive.

The Haiphong correspondent of the *China Mail*, writing on 31st May, says:—On the 29th, at 5 p.m., the Valta and Saigon arrived coming from Saigon, the first mentioned bringing a battery of Artillery, and the second four companies, or 500 marines. There were also on board both vessels provisions and munitions of war. These vessels likewise brought in the intelligence that the Thisus, of the Messageries Maritime Company, would be placed upon the Saigon-Haiphong line, and that she would bring us a further supply of 500 men. You consequently perceive no time is being lost, and we shall soon be in a position to take summary vengeance for the death of Commandant Riviere and his officers and men. The news received from Hanoi this morning is fairly good. The bombardment of the settlement from the left bank of the river has ceased, and a *reconnaissance* made by us on the right bank has enabled us to prove the existence of a large gathering of Chinese, who did not care to approach. The Entin left on the 29th; her mission is to watch the frontier of China, and, if necessary, to stop reinforcements coming from that way.

The *China Mail* of June 5 says:—Through the courtesy of Captain Garceau of the s.s. Nam-vian, which arrived to-day from Haiphong, we have received the following particulars of the present position of affairs at Hanoi:—Since the disastrous sortie of the 19th May, several detachments of troops have arrived from Saigon to reinforce that town and Namdinh. Two hundred and fifty men, consisting of one company of Annamese, officered by Frenchmen and one company of Marine Infantry, arrived at Hanoi about the 27th ultimo, and these were followed up, upon the news of the disaster of the 19th reaching Haiphong, by a further despatch of 500, and a little later some 370 men, including about 125 artillery. Of these troops, between three and four hundred have been sent to reinforce Namdinh, which is the point for the safety of which any apprehension is at present felt. All the civilians, both European and native, have left Hanoi, and the city, so called, which is situated between the French Concession and the citadel, has been burned down and a position in its centre occupied by French troops, thus keeping open the communication between the two positions which had been severed by the bands of Black Flags previous to the sorties of the 19th and 19th ultimo. It is said that the total of French troops at present in Tonking amounts to 3,000, independent of about 3,000 Annamese men trained and officered by Europeans. The position in Haiphong seems to be safe, the present militia strength at the disposal of the Government is sufficient to cope with all immediate emergencies, as in addition to the land forces there is a strong naval contingent and small torpedoes, more or less, taking large sels of war in port and up the rivers, about 30 gunnumber of the Black Flags, who are armed with repeating and breech . . . loading rifles, is said to be only 3,000, but it . . . believed that the bands have been strengthened already by Chinese from the borders of Yunnan to the extent of some 15,000 or 20,000. It was expected in Haiphong that would shortly arrive from Hanoi of action been taken against the enemy now that French force was sufficiently strong to the initiative. The head of the unfortunate dant Riviere is said to have been from the body and displayed as a trophy the Annamese, indeed one of the Chinese who came to Hongkong by the Namthat he personally saw it exhibited, the end of a bamboo pole. There seems to the truth of the story that the fated expedition of the 19th was the chief of the Black Flags by two who overheard a conversation on the who disappeared from the French sion the same night. Commandant Riviere rted to have fallen into the hands of the while still living, though fatally wounded, shot the second chief of the band before expiring.

MURDER OF A FRENCH PRIEST.

The Hongkong *Catholic Register* says:—More sad news reached us from Tongking, and we are afraid it will not be the last. On the 20th May, a Christian chief was coming from a parish in the Namdinh, where he had been celebrating Mass, accompanied by three Catechists and Christians, he was stopped by a band of . . . souldiers in the service of an anti- . . . mandarin. After a few questions had . . . the Christians, the soldiers commenced . . . with their guns, and then . . . with their knives. The Christians had no arms with them, and could not defend themselves. The Catechists were also killed. The chief was then taken to the mandarin, who ordered his head to be cut off. The mandarin then sent for the wife of the chief, and ordered her to trample on the head of her husband. She refused, and was then killed. The mandarin then sent for the children of the chief, and ordered them to trample on the head of their father. They refused, and were killed. The mandarin then sent for the wife of the chief, and ordered her to trample on the head of her husband. She refused, and was then killed. The mandarin then sent for the children of the chief, and ordered them to trample on the head of their father. They refused, and were killed.

MUNICIPALITY OF RANGOON.

DEBENTURE LOAN.

THE Municipal Committee for the city of Rangoon are prepared, with the sanction of the local Government, conveyed in order No. 266-27 M., dated 10th February, 1883, under Section 7 of the Public Works Loan Act of 1879, to receive TENDERS FOR A DEBENTURE LOAN of (Rs. 4,00,000) four lakhs of Rupees, on the security of the rates and taxes levied under the Municipal Act VII. of 1874 for the completion of the Rangoon Water Works.

II. Debentures will be issued for the same amount bearing interest at the rate of (5) five per cent. per annum, payable half-yearly on the 15th March and 15th September of each year.

Debenture Bonds to the extent of eight thousand rupees will be paid off half-yearly and the Debenture Bonds to be paid off will be determined by yearly drawing, the first to be in the month of August, 1888, and thereafter in the months of February and August of each year, and the last in the month of February, 1913, of which notice will be given in one or more of the local papers. The numbers of the Debenture Bonds drawn to be paid off will be notified in one or more of the local papers, and no interest will be paid on such Debentures after the 15th March or 15th September next following. The drawings will take place at the Municipal Office and be conducted by the Finance Sub-Committee of the Municipality.

III. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. 500.

IV. Tenders for the whole or any part of the abovenamed sum of (Rs. 4,00,000) four lakhs of Rupees will be received by the President of the Municipal Committee up to noon on the 17th July, 1883.

V. Each tender should be in the form hereto annexed, and enclosed in a sealed cover, superscribed "Tender for Municipal Loan of 1883," and sent to the Municipal office, addressed to "The President, Municipal Committee, Rangoon."

VI. The tenders will be opened by the President at the Municipal Office on the 7th August, 1883 at noon, a minimum rate having first been fixed by the Finance Sub-Committee.

VII. Parties tendering must pay into the Bank of Bengal to the credit of the Municipal Fund a sum equal to 2 per cent. of the amount tendered and forward the bank receipt with the tender.

VIII. If the tender be accepted the deposit will be taken in part payment, but it will be forfeited if, after the acceptance of the tender, the allotment is not fully paid up on or before the 7th September, 1883.

IX. Debentures will be issued as soon as possible after receipt of the amount of allotment.

X. The deposit on tenders which may not be accepted will be returned on application.

XI. In the case of two or more tenders at the same rate (not being below the minimum) a *pro rata* allotment will, if necessary, be made.

XII. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

XIII. In order to avoid mistakes a separate tender must be made at each rate tendered and a separate deposit must accompany each tender.

XIV. The annual income from the rates and taxes which are offered as security for the loan amount to Rs. 9,89,000. The charges for loans which have already been raised on the same security are as follows:—

Interest at 4½ per cent. on Rs. 4,49,082 payable to Government.
Interest at 5½ per cent. on Rs. 7,00,000 payable to the Bank of Bengal.

SHERLOCK HARE,
President.

Municipal Office, Rangoon, Dated 10th April, 1883

FORM OF TENDER.

I hereby tender for Rs. —— of the Loan advertised in the Notification of the President of the Rangoon Municipality, dated the —— and published in the —— of dated the —— and agree to pay the same subject to the conditions notified, at the rate of Rs. —— for every Rs. 100 allotted to me.

I enclose a deposit receipt of the Bank of Bengal at Rangoon for Rs. —— being 2 per cent. on the amount of my tender, and engage, if my offer be accepted, to pay to the account of the Municipal Fund in the said Bank of Bengal the sum allotted to me on or before the 7th September, 1883.

DRAFT DEBENTURE.

RANGOON MUNICIPAL FIVE PER CENT. LOAN OF 1883 OF FOUR LAKHS OF RUPEES.

No. —— DEBENTURE FOR FIVE HUNDRED RUPEES.

The Municipal Committee for the city of Rangoon, appointed under the British Burmah Municipal Act, 1874, in consideration of the sum of Five Hundred Rupees paid to them by —— or order, thirty years after the date hereof, the sum of Five Hundred Rupees, together with interest thereon, in the meantime at the rate of five per centum per annum by equal half yearly payments on the 15th of March and the 15th day of September in every year, the first of such half yearly payments to be made on the —— day of —— 1883, but subject as to the payment of both principal and interest to the conditions endorsed hereon.

For the Municipal Committee of the city of Rangoon this —— day of ——1883.

President.
Member.
Ex-officio Member

N. B.—For convenience of drawing all transfers of this Debenture must be registered at the Municipal Office in Rangoon.

CONDITION ON WHICH THIS DEBENTURE IS ISSUED.

Debenture bonds to the extent of Eight Thousand Rupees will be paid off half yearly and the Debenture bonds to be paid off will be determined by yearly drawings, the first to be in the month of August, 1888, and thereafter in the months of February and August in every year, and the last in the month of February, 1913, of which notice will be given in one or more of the local papers. The numbers of the Debenture Bonds drawn to be paid off will be notified in one or more of the local papers, and no interest will be paid on such Debentures after the 15th March or 15th September next following the drawing. The drawings will take place at the Municipal office and be conducted by the Finance Sub-Committee of the Municipality.
